University of Toronto

(The Provincial University of Ontario)

A SPECIAL OPPORTUNITY FOR THE TEACHERS OF THE CITY OF HAMILTON AND THE COUNTY OF WENTWORTH TO SECURE THE B.A. DEGREE WITHOUT DISCONTINUING THEIR TEACHING.

During the session 1921-22, "Teachers' Classes" were conducted in Hamilton by the University of Toronto through the Department of University Extension. The subjects taught were Second Year English (on Thursday evenings from 7 to 9 o'clock) and Second Year Botany (on Saturday forenoons). A third subject was offered but there were not sufficient applicants to make a third class possible. Twenty is the minimum number of students in any one class. (See page 3 of this bulletin for details of arrangements.) The Hamilton Board of Education kindly placed the necessary rooms in the Collegiate Institute at the disposal of the teachers.

Those who took the Course last session were teachers who held Faculty Entrance, Upper School, or Honour Matriculation certificates covering all the subjects, or all but one of the subjects, of the First Year of the Teachers' Course. Other teachers whose qualifications were not sufficient to enable them to enter the Second Year took advantage of evening classes, conducted by the Hamilton Board of Education, to study the necessary Upper School subjects.

Most of those who took instruction in the two subjects mentioned above were successful at the May examinations, and several supplemented the work of the winter by taking an additional subject in the Summer Session at the University of Toronto. By taking three subjects each year, the work of the Second, Third, and Fourth Years can be completed in five years.

The Course

First Year:—(1) English, (2) Latin, (3 and 4) Two of (a) Greek, (b) German, (c) French, (d) Spanish, (e) Physics and Chemistry *or* Biology, (5) Mathematics (Algebra and Geometry), (6) Trigonometry.

These are all subjects for which credit may be secured on an Upper School, Faculty Entrance, Honour Matriculation, or equivalent certificate. The Teachers' Course, therefore, ordinarily begins with the Second Year, the exception being First Year French which is occasionally offered for the convenience of teachers whose certificates do not include this subject.

Second Year:—English *or* Mathematics, French, Science, History, Psychology *or* Political Economy.

Third Year:—English, French *or* Mathematics, Science, History, Ethics *or* Political Economy.

Fourth Year:—English, French *or* Mathematics, Science, History, History of Philosophy *or* Political Economy.

The Science of these three years is made up of Botany, Zoology, and Geology which are offered in any order, one each session, and are of equal value. A student who selects Mathematics, or Political Economy, or the philosophical group of subjects, must take the subject or group chosen throughout the three years, *i.e.*, the sequence provided by these subjects cannot be broken.

Subjects offered during the academic session of 1922-23.

Second Year: History, Psychology, Geology.

Third Year: History, French, Science.

Fourth Year: History, Ethics, Science.

Tuition in subjects other than those listed will, so far as possible, be provided if there are twenty or more applications for such a subject.

Fees: For admission by certificate to the Second Year, $15.00.

Tuition—One subject, $10.00; two subjects, $18.00; three subjects, $24.00.

Examinations—$2.00 per subject.

Time-Table: Science subjects are taken on Saturday forenoons. Evenings on which other classes meet will be announced at the beginning of the session.

Regulations Governing Teachers' Classes

The University of Toronto is very anxious, up to the limit of its powers as determined by its finances and the size of its staff, to aid persons who are in employment during the day to secure education of University grade and will go a long way to provide credit for those proceeding to a degree, provided always, however, that the University retains full control of its own standards and of its staff. Therefore, the University is prepared to offer instruction and admission to examinations to students belonging to any organization in any locality in the Province under the following conditions: (1) the class must consist of not fewer than twenty members; (2) the fees paid by each student must

be the same as those paid by students in the Teachers' Course; (3) the organization making application for such a class must collect the fees from every student and forward these fees to the University within the time limit stipulated in the case of students in the Teachers' Course; (4) the University will select and pay the members of its staff who give the tuition; (5) such class or classes may be held in classrooms supplied by the organization concerned, provided the equipment and library facilities are suitable, in the judgment of the University, for the work of such class, or classes; (6) the tuition given to such class or classes shall be of the same character as that given to students in the Teachers' Course; (7) the number of such classes shall be determined by the ability of the University to provide this instruction; (8) unless otherwise expressly stated in this section such class or classes shall be governed by the regulations at the time governing classes in the Teachers' Course.

Applications for enrolment in "Teachers' Classes" should reach the Extension Office, University of Toronto, on or before September 23rd, 1922. Fees should accompany applications.

Any particulars not given in this circular will be cheerfully furnished on application. Teachers, or others, who are not proceeding to a degree may enroll as occasional students in any of the above subjects or they may be interested in other courses conducted by this Department. A bulletin outlining these will be mailed on request. For particulars of the postgraduate Courses leading to the degrees of B.Paed. and D.Paed., consult the Dean of the Ontario College of Education.

A new Course leading to the degree of Bachelor of Household Science has recently been established. Full particulars will be sent on application.

W. J. DUNLOP,
Director, University Extension,
University of Toronto.
